

FORCE® Users

CNC Flow Control holds exclusive rights for FORCE in North America and our in-house quality team performs pressure testing before shipments. All FORCE valves are manufactured in South Korea with strict accordance to applicable ASME and API standards. CNC Flow Control maintains a large inventory of carbon and stainless steel configurations in both floaters and trunnions.

CNC
FLOW CONTROL

Size Range: 2" – 16"
ASME Class Range: 150 through 2500
Floaters & Trunnions
Full & Reduced Port
Design: API 6D / ASME B16.34 / NACE
Firesafe Testing to API 607
Low Fugitive Emissions to API 641
