

INSTRUMENTATION VALVES

Needle | Inline | Isolator

The C&C brand of instrumentation valve offerings includes a wide range of needle valves, as well as an inline check valve option. Ideal for applications where extreme precision, and accurate flow is critical.

Standard Needle Valve

- **Sizes:** 1/4" – 1"
- **Pressure Class:** 6000/10000 PSI
- **Configurations:** Male x Female, Female x Female
- **End Connections:** Threaded (NPT)
- Available in carbon steel & stainless

Mini Needle Valve - Tee Handle

- **Sizes:** 1/4"
- **Pressure:** 6000 PSI
- **Configurations:** Male x Female, Female x Female
- **End Connections:** Threaded (NPT)
- Available in carbon steel & stainless

Angle Needle Valve

- **Sizes:** 1/4" – 1/2"
- **Pressure Class:** 6000/10000 PSI
- **Configurations:** Male x Female
- **End Connections:** Threaded (NPT)
- Available in carbon steel & stainless

Mini Needle Valve - Round Handle

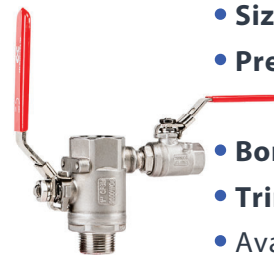

- **Sizes:** 1/4"
- **Pressure:** 6000 PSI
- **Configurations:** Male x Female, Female x Female
- **End Connections:** Threaded (NPT)
- Available in carbon steel & stainless

Inline Check Valve

- **Sizes:** 1/8" – 1"
- **Pressure:** 6000 PSI
- **Configurations:** Male x Female
- **End Connections:** Threaded (NPT)
- **Materials:** 316 Stainless Steel
- NACE compliant

Isolator Ball Valve

- **Sizes:** 1" x 1/4", 2" x 1/4"
- **Pressure:** 1" at 2000 PSI, 2" at 1500 PSI
- **Bore:** Standard port
- **Trim:** 316 Stainless Steel
- Available in carbon steel & stainless
- **Additional:** Seal-welded body, NACE compliant, blow-out proof stem, Male x Female NPT
